SAFETY DATA SHEET

Client : GUANG DONG MEIBAO COSMETICS CO., LTD.
Beihuan South Road Industrial Estate, Xiashan, Chaonan District, Shantou City, Guangdong Province, China

Prepared by : Guangzhou OMS Quality Technical Service Co., LTD.
No. A3137, 28th Floor, Building 371-1, Wushan Road, Tianhe District, Guangzhou City, Guangdong Province, China

Report Date : 2025-01-20

Report No. : OMS250120001SR

Guangzhou OMS Quality Technical Service Co., LTD.

Drafted by : _____ Tony

Checked by : _____ Jack

Approved by : _____ Duncan

SECTION 1- CHEMICAL PRODUCT INFORMATION**Product details:**

Product name : White Tea And Oakmoss Perfume
Model : /
Mark : /
End use : /
TEL : +86-18818802049
Fax : /
E-mail : 664273661@qq.com

Supplier/Manufacturer

Manufacturer : GUANG DONG MEIBAOCOSMETICS CO., LTD.
Address : Beihuan South Road Industrial Estate, Xiashan, Chaonan District, Shantou City, Guangdong Province, China

Summary

As specified by the client, This safety data sheet was prepared in accordance with Un GHS Rev.10, The EU CLP REGULATION(EC) No 1272/2013, and US OSH Hazard Communication Standards(29 CFR 1910.1200). Please refer to attached report for details.

SECTION 2- HAZARDS IDENTIFICATION

Classification: If contact the liquid, reference as follows
This item belongs to dangerous goods, do not drink the wrong food, no contact with eyes and other sensitive parts.

Classification of the substance or mixture: Classification according to GHS
Skin, irritate(Category 1B)
Eye Irritate (Hazard category 1)

GHS Label elements, including precautionary statements:

Signal word: Warning

Hazard statement(s): H225:Flammable liquid; H317: May cause an allergic skin reaction H320: Causes eye irritation; H302:Harmful if swallowed

Precautionary statements: **Prevention:**P264 Wash thoroughly after handling; P270 Do not eat, drink or smoke when using this product; P280 Wear protective gloves/protective clothing/eye protection/face protection
Response :P312:Call a Poison center or doctor/physician if you feel unwell; P302+P350-IF ON SKIN: Gently wash with plenty of water
P301+P330+P331-IF SWALLOWED: rinse mouth. Do NOT induce vomiting; P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.**Disposal :** P501: Dispose of contents/container in accordance with local/national regulations
Hazards not otherwise classified (HNOC): Not Applicable
Other information: No information available

SECTION 3- COMPOSITION /HAZARDOUS INGREDIENTS

Chemical Name	CAS No.	Content (wt%)
ALCOHOL	64-17-5	81
WATER	7732-18-5	14
AROMA	---	5

SECTION 4- FIRST AID MEASURES

Eye contact : Rinse thoroughly with plenty of water, also under the eyelids. If symptoms persist, call a physician.

Skin contact : Remove contaminated clothing and shoes , Wash skin with soap and water. In the case of skin irritation or allergic reactions see a physician.

Inhalation : Move to fresh air. If symptoms persist, call a physician.

Ingestion : Do NOT induce vomiting. Drink plenty of water. If symptoms persist, call a physician.

Most Important Symptoms/Effects: Both acute and delayed Swallowing Do not induce vomiting. Get medical attention.

SECTION 5- FIGHTING MEASURES

Suitable extinguishing Media: CO2, dry chemical powder, water spray

Unsuitable extinguishing Media: Not applicable

Specific Hazards Arising from the Chemical: Formation of toxic gases is possible during heating or in case of fire.In case of fire, the following can be released : Carbon monoxide(CO), Carbon dioxide , Other irritating and toxic gases

Hazardous Combustion Products:	Carbon oxides. peroxide Other irritating and toxic gases
Protective Equipment and Precautions for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. For example: Wear self-contained respiratory protective device. Wear suitable protective clothing and eye/face protection.
Special hazards arising from the substance or mixture:	It may release hazardous decomposition products when exposed to a fire situation. It contains flammable elements that may vent, ignite and produce sparks when subjected to high temperature, may burn rapidly with flare-burning effect; may ignite other material.

SECTION 6- ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	Personal Precautions: Avoid contact with eyes. Refer to section 8 for personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas.
Environmental precautions:	Environmental Precautions Refer to protective measures listed in Sections 7 and 8. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.
Methods and material for containment and cleaning up:	Methods for Containment Prevent further leakage or spillage if safe to do so. Methods for Cleaning up Use personal protective equipment. Dam up. Cover liquid spill with sand, earth or other Non combustible absorbent material. Pick up and transfer to properly labeled containers. Clean contaminated surface thoroughly

SECTION 7- HANDLING AND STORAGE

HANDLING:	Handling Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Wash thoroughly after handling. Use this material with adequate ventilation. The product is dangerous good.
STORAGE:	Keep out of reach of children. Do not expose to heat or fire. Avoid storage in direct sunlight. Do not store together with oxidizing and acidic materials. Keep ignition sources away- Do not smoke. Store in cool, dry and well-ventilated place.

SECTION 8- EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Measures: Showers, Eyewash stations , Ventilation systems
Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits. Ensure adequate ventilation.

Individual protection measures, such as personal protective equipment: **Eye/Face Protection:** Tightly sealed goggles. **Body protection:** Protective work clothing. **Skin protection:** Protective gloves
Material of gloves :The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. **Penetration time of glove material:** The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. **Respiratory Protection :** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. **Hygiene Measures :**Handle in accordance with good industrial hygiene and safety practice.

SECTION 9- PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear liquid, free of impurities
Color	Compliant with the specified color
Odor	Compliant with specified odor
Density	Not available.
Boiling Point	> 50°C
Melting Point	Not available.
Flashpoint	< 23°C
Vapour density	Not available.
Solubility in water	Complete
Partition coefficient (n-octanol / water)	Not available.
Viscosity	Not available.
PH Value	Not available.
Upper flammable (explosive) limits in air – Upper (vol %) – UEL	Not available.
Lower flammable (explosive) limits in air – Lower (vol %) – LEL	Not available.
Ignition temperature	Not available.

SECTION 10- STABILITY AND REACTIVITY

Reactivity:	Stable under recommended storage and handling conditions (see section 7, Handling and storage).
Chemical stability:	Stable under normal conditions of use, storage and transport. Thermal decomposition/conditions to be avoided: No decomposition if used according to specifications.
Possibility of Hazardous Reactions:	None under normal processing.
Hazardous Polymerization:	Hazardous polymerization does not occur.
Conditions to avoid:	Strong heating, fire, Incompatible materials.
Incompatible materials:	Strong oxidizing agents, Strong acids, Base metals.
Hazardous Decomposition Products:	Carbon oxides, Other irritating and toxic gases.

SECTION 11- TOXICOLOGICAL INFORMATION

Acute toxicity:	No data available.
Toxicity to Animals:	LD50: Not available. LC50: Not available.
Skin corrosion/irritation:	No strong irritant effect
Serious eye damage/irritation:	Cause serious eye irritation.
Respiratory or skin sensitization:	No sensitizing effects known.
Specific target organ system toxicity:	No information available.
CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction):	No information available.

SECTION 12- ECOLOGICAL INFORMATION

Ecotoxicity	: No information available.
BOD5 and COD	: No information available.
Products of Biodegradation	: No information available.

Toxicity of the Products of Biodegradation : No information available.
Special Remarks on the Products of Biodegradation : No information available.

SECTION 13- DISPOSAL CONSIDERATIONS

Waste Disposal: Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261.3. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.

Unused products: Used in the shelf life.

Used / contaminated products: Approved waste collectors to designated waste disposal sites.

SECTION 14- TRANSPORT INFORMATION

The packaging shall be adequate to avoid mechanical damage during transport, handling and stacking. The materials and pack design shall be chosen so as to prevent the development of Unintentional electrical conduction, corrosion of the terminals and ingress of moisture. According to the Packing Instruction of IATA DGR 61th Edition for transportation. Meets requirements of International Maritime Dangerous Goods IMDG CODE 41-22 Special Provision to be transported dangerous goods; Meets the requirements of 49CFR 173.185 to be transported as dangerous goods for road, rail, air, and vessel. Meets the requirements of TDG to be transported as dangerous goods. The package must be handled with care and that a flammability hazard exists if the package is damaged;
UN number: 1170
Packaging level: PGII
UN Classification: 3 ;

SECTION 15- REGULATORY INFORMATION**Law Information**

- 《 Dangerous Goods Regulation 》
- 《 Recommendations on the Transport of Dangerous Goods Model Regulations 》
- 《 International Maritime Dangerous Goods 》
- 《 Technical Instructions for the Safe Transport of Dangerous Goods 》
- 《 Classification and code of dangerous goods 》
- 《 Occupational Safety and Health Act 》 (OSHA)
- 《 Toxic Substances Control Act 》 (TSCA)
- 《 Consumer Product Safety Act 》 (CPSA)
- 《 Federal Environmental Pollution Control Act 》 (FEPCA)
- 《 The Oil Pollution Act 》 (OPA)
- 《 Superfund Amendments and Reauthorization Act Title III (302/311/312/313) 》

- 《 Resource Conservation and Recovery Act》 (RCRA)
- 《 Safety Drinking Water Act》 (CWA)
- 《 California Proposition 65 》
- 《 Code of Federal Regulations 》 (CFR)

In accordance with all Federal, State and Local laws.

SECTION 16- OTHER INFORMATION

The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be Applicable.
